

# ulta3

an impulse range of high quality, colour cosmetics for all ages

## Liquid Assets

Want to stand out from the crowd? **Ulta3** can help with their great range of bold and bright colours, and this time it's all about the eyes.

Introducing **Ulta3's Shimmer and Glitter Liquid Eyeliners**, which are fun, a little different and won't disappoint.

This eight shade collection is a combination of four shimmer and four glitter shades. You can use them individually or together, as each shimmer shade has a complementary glitter shade you can layer over the top. These fun and sparkling shades are perfect to add a little punch to any makeup look.

Like the complete **Ulta3** cosmetics range, the **Liquid Eyeliner** formula is long-lasting, won't smudge and is fade proof. One line is all you need for a dramatic result which sets in seconds. Not to mention the fine, flexi-applicator tip allows for quick application and minimal mistakes.

If that is not enough, how about the price! At only \$6.95 you can grab a few shades and your makeup bag will be screaming colour!

**Makeup Tip:** Remember when wearing glitter eyeliner keep the rest of the makeup toned down and simply focus on the eyes.
